1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying financial statements of First Symetra National Life Insurance Company of New York (the Company) have been prepared on the basis of accounting practices prescribed or permitted by the New York State Department of Financial Services-Insurance Division (the Department).

Companies domiciled in New York prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) subject to any deviations prescribed or permitted by the Department.

A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the state of New York is shown below.

The Company has received written approval from the Department to borrow funds from Symetra Life Insurance Company (the Parent).

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes available, which could impact the amounts reported and disclosed herein.

C. Accounting Policy

Premiums are recognized annually on the policy anniversary for individual traditional life policies, consistent with the statutory reserving process. Premiums for universal life policies and annuity considerations with mortality and morbidity risk are recognized when received. Amounts received under deposit-type contracts with no life contingencies, including certain group annuity contracts, are recorded as liabilities when received. Group life, health, and disability premiums are recognized when due. The costs of acquiring and renewing business and sales inducements are expensed when incurred.

In addition, the following provides a summary of the Company's key accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds, excluding loan-backed and structured securities are stated at amortized cost using the scientific method, except for those with an NAIC designation of 6, which are reported at lower of amortized cost or fair value.
- (3) The Company does not currently invest in common stocks.
- (4) The Company does not currently invest in preferred stocks.
- (5) Mortgage loans on real estate are carried at the outstanding principal balances less any impairment.

- (6) Loan-backed bonds and structured securities, for which the collection of all contractual cash flows is probable, are reported at amortized cost using the retrospective methodology consistently applied by type of security, except for those in or near default, which are reported at the lower of amortized cost or fair value. The retrospective methodology changes both the yield and the asset balance so that the expected future cash flows produce a return on the investment equal to the return now expected over the life of the investment as measured from the date of acquisition.
- (7) The Company has no investments in subsidiaries, controlled or affiliated companies.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company does not currently invest in derivatives.
- (10) The Company does not use anticipated investment income as a factor in the premium deficiency calculation.
- (11) Liabilities for losses and loss/claim adjustment expense for specific medical stop-loss policies, aggregate medical stop-loss policies, and limited benefit medical are calculated using a gross premium valuation method. Assumptions and adequacy are reviewed periodically. For group disability income, the liabilities for losses and loss/claim adjustment expense are calculated by either using a gross premium valuation method, or on a seriatim basis using tabular methods and discounted for interest, with assumptions reviewed periodically.
- (12) The Company has not materially modified its capitalization policy from prior year.
- (13) The Company has no pharmaceutical rebate receivables.
- D. Going Concern

After evaluating the entity's ability to continue as a going concern, management was not aware of any conditions or events which raised substantial doubts concerning the entity's ability to continue as a going concern as of the date of the filing of this statement.

- D. Loan-Backed Securities
 - (1) Prepayment assumptions for single and multi-class mortgage-backed securities are obtained primarily from broker dealer survey values or internal estimates when survey values are not available.
 - (2) The Company did not recognize other-than-temporary impairments (OTTI) for loan backed and structured securities due to the intent to sell or inability to hold for the year ended December 31, 2017.
 - (3) As of December 31, 2017 the Company did not hold any investments in loan-backed and structured securities for which OTTI has been recognized where the present value of cash flows expected to be collected is less than the amortized cost of the security.
 - (4) All impaired securities (fair value is less than cost or amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non- recognized interest related impairment remains):

a.	The aggregate related amount of unrealized losses	
	1. Less than 12 months	\$ 193,591
	2. 12 months or longer	345,241

b. The aggregate related fair value of securities with unrealized losses

1. Less than 12 months	\$ 23,755,104
2. 12 months or longer	14,145,378

(5) The Company's review of available-for-sale investment securities for OTTI includes both quantitative and qualitative criteria. Quantitative criteria include the length of time and amount that each security is in an unrealized loss position (i.e., is underwater) and, for bonds, whether expected future cash flows indicate that a credit loss exists.

While all securities are monitored for impairment, the Company's experience indicates that under normal market conditions, securities for which the cost or amortized cost exceeds fair value by less than 20% do not typically represent a significant risk of impairment and, often, fair values recover over time as the factors that caused the declines improve. If the estimated fair value has declined and remained below cost or amortized cost by 20% or more for at least six months, the Company further analyzes the decrease in fair value to determine whether it is an other-than-temporary decline. To make this determination for each security, the Company considers, among other factors:

- Extent and duration of the decline in fair value below cost or amortized cost;
- Financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations, earnings potential or compliance with terms and covenants of the security;
- Changes in the financial condition of the security's underlying collateral;
- Any downgrades of the security by a rating agency;
- Nonpayment of scheduled interest;
- Other indications that a credit loss has occurred; and
- For bonds, the Company's intent to sell or whether it is more likely than not the Company will be required to sell the bond prior to recovery of its amortized cost, considering any regulatory developments, prepayments or call modifications and the Company's liquidity needs.

On December 22, 2017, Public Law No. 115-97 (2017 Tax Act) was signed into law, reducing the corporate tax rate from 35% to 21%, effective January 1, 2018. The effects of the 2017 Tax Act have been reasonably estimated, and the following amounts were recorded in the Summary of Operations for the year ending December 31, 2017.

Line 40: Change in net deferred income tax	\$ (4,486,468)
Line 41: Change in nonadmitted assets	469,294
Total impact to surplus	\$ (4,017,174)

These amounts are included in the above table as part of the Net change in DTA/(DTL) and line 2.c. Nonadmitted Ordinary DTAs.

This impact is due to the re-measurement of deferred tax assets and liabilities to reflect changes in enacted rates and tax reserve computations under the 2017 Tax Act. As analysis of the 2017 Tax Act is completed and any additional guidance issued by the U.S. Treasury Department, the IRS, and other standard-setting bodies is interpreted, there may be adjustments to the provisional amounts used to calculate the net admitted DTA. Those adjustments may materially impact the provision for income taxes in the period in which the adjustments are made.

20. Fair Value Measurements

A. Assets Measured at Fair Value

Included in various investment-related line items in the financial statements are certain financial instruments that are measured and reported at fair value.

The Company determines the fair value of its financial instruments based on the fair value hierarchy, which favors the use of observable inputs over the use of unobservable inputs when measuring fair value.

The Company has categorized its financial instruments into the three-level hierarchy, which gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The level assigned to a fair value measurement is based on the lowest-level input that is significant to the measurement. The fair value measurements for the Company's financial instruments are categorized as follows:

- Level 1 Unadjusted quoted prices in active markets for identical instruments.
- Level 2 Quoted prices for similar instruments in active markets and model-derived valuations whose inputs are observable. This category includes those financial instruments that are valued using industry-standard pricing methodologies or models. All significant inputs are observable or derived from observable information in the marketplace.
- Level 3 Fair value estimates whose significant inputs are unobservable. This includes financial instruments for which fair value is estimated based on industry-standard pricing methodologies and internally developed models utilizing significant inputs not based on or corroborated by readily available market information. In limited circumstances, this may also utilize estimates based on non-binding broker quotes.

(1) Fair value assets measured and reported as of December 31, 2017:

Assets at fair value	Level 1	Level 2	Level 3	Total
Variable separate accounts assets	\$ 273,171 \$	— \$	— \$	273,171
Total assets at fair value	\$ 273,171 \$	— \$	— \$	273,171

(2) The Company had no assets or liabilities measured and reported within level 3 as of December 31, 2017 or 2016.

(3) Transfers into and/or out of Level 1, 2, and 3 are reported at the value as of the beginning of the period in which the transfer occurs.

34. Separate Accounts

- A. Separate Account Activity
 - 1. The Company utilizes separate accounts to record and account for assets and liabilities for the Company's individual variable annuity products. In accordance with New York State procedures for approving items within the separate account, the separate account classification of the individual variable annuities are supported by New York Article 42, Section 4240.
 - 2. In accordance with the contract provisions relating to the Company's separate account products, 100% of the individual variable annuity assets are legally insulated from the general account, preventing such assets from being generally available to satisfy claims resulting from the general account.

Separate account assets as of December 31, 2017 are attributed to the following products:

Product	Legal	ly Insulated Assets Not L	egally Insulated	Total
Variable annuities	\$	273,171 \$	— \$	273,171
Total	\$	273,171 \$	— \$	273,171

Separate account assets as of December 31, 2016 are attributed to the following products:

Product	Legally	Insulated Assets Not Leg	gally Insulated	Total
Variable annuities	\$	258,944 \$	— \$	258,944
Total	\$	258,944 \$	— \$	258,944

3. In accordance with the contract provisions relating to the Company's products recorded within the separate accounts, some separate account liabilities are guaranteed by the general account. These guarantees are described below in 34.B.

As of December 31, 2017 and 2016, the Company had no maximum guarantees for separate account liabilities.

Over the last five years, the Company has paid the general account the following separate account guarantees:

Year ending	e Account rantees
2017	\$ 33
2016	27
2015	42
2014	54
2013	47

The separate account does not compensate the general account for the risk taken.

- 4. The Company does not engage in securities lending transactions within the separate accounts.
- B. General Nature and Characteristics of Separate Account Business

The Company administers segregated asset accounts (separate accounts) for variable annuity policyholders. The assets of these separate accounts consist of mutual funds and are reported at fair value. The liabilities of these separate accounts represent reserves established to meet withdrawal and future benefit payment provisions of contracts with these policyholders and are of a nonguaranteed return nature. The assets of the separate accounts are not subject to liabilities arising out of any other business the Company may conduct. Investment risks associated with fair value changes are borne by the policyholders.

For variable annuity contracts with guaranteed minimum death benefits (GMDB), the Company contractually guarantees total deposits made to the contract, less any partial withdrawals, in the event of death. The Company has issued, but no longer offers, one type of GMDB contract with a ratchet that is evaluated every eighth year. The ratchet reset benefit is equal to the immediately preceding GMDB or is "stepped up" to the account value on the evaluation date, if higher. The GMDB is held in Exhibit 5, miscellaneous reserves section, of the Company's general account statement. The Company reinsures nearly all of the GMDB risk on its individual variable annuity contracts. Therefore, the recorded liability is not material.

Information regarding the separate account of the Company as of December 31, 2017 and 2016 is as follows:
