1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Symetra National Life Insurance Company (The Company) have been prepared on the basis of accounting practices prescribed or permitted by the Insurance Division, Department of Commerce, of the State of Iowa (the Department).

Companies domiciled in the state of Iowa prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual (NAIC SAP)*, subject to any deviations prescribed or permitted by the Department. A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the state of Iowa is shown below.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes available, which could impact the amounts reported and disclosed herein.

C. Accounting Policy

Premiums are recognized annually on the policy anniversary for traditional individual life policies, consistent with the statutory reserving process. Premiums for universal life policies are recognized when received.

In addition, the following provides a summary of the Company's key accounting policies:

- (1) The Company does not currently invest in short-term investments.
- (2) Bonds, excluding loan-backed and structured securities, are stated at amortized cost using the constant yield method, except for those with an NAIC designation of 6, which are reported at lower of amortized cost or fair value.
- (3) The Company does not currently invest in common stocks.
- (4) The Company does not currently invest in preferred stocks.
- (5) The Company does not currently invest in mortgage loans.
- (6) Loan-backed securities, including mortgage backed securities are stated at amortized cost, except for those with an NAIC designation of 6, which are reported at lower of amortized cost or fair value. Income is recognized using a constant effective yield based on anticipated prepayments and the estimated economic life of the securities. Prepayment assumptions are based on current interest rates and the economic environment. When actual prepayments differ significantly from anticipated prepayments, the effective yield is recalculated to reflect actual payments to date and estimated future payments. The net investment in the security is adjusted to the amount that would have existed had the new effective yield been applied since the acquisition of the security (i.e. the retrospective method). For commercial mortgage-backed interest-only securities, the effective yield is adjusted prospectively for any changes in estimated cash flows. The Company includes any resulting adjustment in net investment income in the current period.
- (7) The Company has no investments in subsidiaries, controlled or affiliated companies.
- (8) The Company has no ownership interests in joint ventures, partnerships or limited liability companies.

- (9) The Company does not currently invest in derivatives.
- (10) The Company does not use anticipated investment income as a factor in the premium deficiency calculation.
- (11) The Company has no accident or health contracts.
- (12) The Company has not modified the capitalization policy from the prior year.
- (13) The Company has no pharmaceutical rebate receivables.

D. Going Concern

After evaluating the entity's ability to continue as a going concern, management was not aware of any conditions or events which raised substantial doubts concerning the entity's ability to continue as a going concern as of the date of the filing of this statement.

2. Accounting Changes and Correction of Errors

Accounting Changes

There were no accounting changes for the years ended December 31, 2023 or 2022.

D. Loan-Backed Securities

- (1) Prepayment assumptions for single and multi-class mortgage-backed securities are obtained primarily from broker dealer survey values or internal estimates when survey values are not available.
- (2) The Company did not recognize other-than-temporary impairments (OTTI) for loan backed and structured securities due to the intent to sell or inability to hold for the year ended December 31, 2023.
- (3) As of December 31, 2023 the Company did not hold any investments in loan-backed and structured securities for which OTTI has been recognized where the present value of cash flows expected to be collected is less than the amortized cost of the security.
- (4) All impaired securities (fair value is less than cost or amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate related amount of unrealized losses:

> 1. Less than 12 months \$ 2. 12 months or longer 132,802

The aggregate related fair value of securities with unrealized losses: h.

\$ 1. Less than 12 months 2. 12 months or longer 4,558,075

(5) The Company reviewed its investments with unrealized losses in accordance with its impairment policy. The Company's evaluation determined, after the recognition of OTTI, that the remaining declines in fair value were temporary and the Company did not intend to sell these securities at an amount below the carrying value prior to maturity (or recovery). For loan-backed bonds and structured securities, the Company expects to recover the entire amortized cost basis.

The Company uses both quantitative and qualitative criteria to review all securities in its holdings. Based on the Company's experience, investments with amortized cost exceeding estimated fair value by less than 20% do not typically represent a significant risk of impairment under normal market conditions. For those with amortized cost exceeding estimated fair value by over 20% and those that were downgraded by a rating agency, the Company compares the security's implied credit spread to the benchmark spread for bonds with significant credit risk. If the security's spread exceeds the defined tolerance compared to this benchmark, the Company further analyzes the decrease in fair value to determine whether it is an other-than-temporary impaired by considering, among other factors, the following:

- Extent of downgrades of the security by a rating agency;
- Extent and duration of the decline in fair value below cost or amortized cost;
- Financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations, earnings potential, or compliance with terms and covenants of the security;
- Changes in the financial condition of the security's underlying collateral;
- Nonpayment of scheduled interest, or the reduction or elimination of dividends; and
- Other indications that a credit loss has occurred.

For bonds, the Company concludes an OTTI has occurred if a security is underwater and there is an intent to sell the security, or it is more likely than not that the Company will be required to sell the security prior to recovery of its amortized cost, considering any regulatory developments, prepayment or call notifications, and the Company's liquidity needs.

Loan-backed and structured securities are considered other-than-temporarily impaired when the Company has concluded it does not have the intent and ability to retain the security for sufficient time to recover the amortized cost basis, it intends to sell the security prior to maturity at an amount below the carrying value, or it does not expect to recover the entire amortized cost basis even if it has the intent and ability to hold.

20. Fair Value Measurements

A. Assets Measured at Fair Value

The Company determines the fair value of its financial instruments based on the fair value hierarchy, which favors the use of observable inputs over the use of unobservable inputs when measuring fair value.

The Company has categorized its financial instruments into the three-level hierarchy, which gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The level assigned to a fair value measurement is based on the lowest-level input that is significant to the measurement. The fair value measurements for the Company's financial instruments not carried at fair value, but disclosed at fair value are categorized as follows:

- Level 1 Unadjusted quoted prices in active markets for identical instruments.
- Level 2 Quoted prices for similar instruments in active markets quoted prices for identical or similar instruments in markets that are not active, model-derived valuations whose inputs are observable and market corroborated inputs. This category includes those financial instruments that are valued using industry-standard pricing methodologies or models. All significant inputs are observable or derived from observable information in the marketplace.
- Level 3 Fair value estimates whose significant inputs are unobservable. This includes financial
 instruments for which fair value is estimated based on industry-standard pricing methodologies and
 internally developed models utilizing significant inputs not based on or corroborated by readily available
 market information. In limited circumstances, this may also utilize estimates based on non-binding broker
 quotes.
- (1) The Company had no significant financial assets or financial liabilities recorded at fair value as of December 31, 2023 or 2022.
- (2) (5) Not applicable
- B. Other Fair Value Disclosures

C. Fair Values for all Financial Instruments by Levels 1, 2 and 3:

D. Not Practical to Estimate Fair Value:

Type of Financial Instrument	Carrying Value	Effective Interest Rate	Maturity Date	Explanation
Contract loans:				
December 31, 2023	\$ 135,047	5.2% to 7.4%	N/A	See below
December 31, 2022	\$ 132,149	5.2% to 7.4%	N/A	See below

The Company's contract loans have varying interest rates ranging from 5.2% to 7.4% and do not have stated maturity dates or payment terms. Cash flow projections are not available and would require significant amounts of judgment and estimation and would not be practical given the immateriality of these assets.

31. Reserves for Life Contracts and Annuity Contracts

- (1) The Company waives deduction of deferred fractional premium upon death of life policy insureds and returns any premium beyond the date of death. Surrender values on policies do not exceed the corresponding benefit reserves.
- (2) For substandard lives, either extra premium is charged, or the gross premium for a rated age is charged. Mean reserves are determined by computing the regular mean reserve for the plan at any rated age and, in addition, holding one-half of any extra premium charge for the year.
- (3) As of December 31, 2023 and 2022, the Company had \$352,464 and \$489,464, respectively, of insurance in force for which the gross premiums are less than the net premiums according to the standard valuation set by the Department. Reserves to cover the difference as reported in Exhibit 5, miscellaneous reserves section, were \$1,367 and \$2,970 as of December 31, 2023 and 2022, respectively, and were included in aggregate reserves.
- (4) The tabular interest has been determined by formula as described in the instructions.
- (5) Tabular interest on funds not involving life contingencies not applicable.
- (6) Other reserve changes for the year ended December 31, 2023:

31.3 Totals	25,007,670	25,260,555	252,885

31.4	Describe the sources or methods utilized in determining the fair values:				
	The Company has elected to use the same pricing methodology and sources as utilized for obtaining GAAP fair values in which the security would sell in an arm's length transaction between a willing buyer and seller in possession of the same information. The Company uses quoted market prices from independent third party pricing services or public market information to determine the fair value of its investments when such information is available. When such information is not available for investments, as in the case of securities that are not publicly traded, we determine fair value using other valuation techniques. Such techniques include evaluating discounted cash flows, identifying comparable securities with quoted market prices, and using internally prepared valuations based on certain modeling and pricing methods				
32.1	Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D?	Yes	[]	No	[X]
32.2	If the answer to 32.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source?	Yes	[]	No	[]
32.3	If the answer to 32.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:				
	Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Investment Analysis Office been followed?	Yes	[X]	No	[]
34.	By self-designating 5GI securities, the reporting entity is certifying the following elements of each self-designated 5GI security: a. Documentation necessary to permit a full credit analysis of the security does not exist or an NAIC CRP credit rating for an FE or PL security is not available. b. Issuer or obligor is current on all contracted interest and principal payments. c. The insurer has an actual expectation of ultimate payment of all contracted interest and principal.				
	Has the reporting entity self-designated 5GI securities?	Yes	[]	No	[X]
35.	By self-designating PLGI securities, the reporting entity is certifying the following elements of each self-designated PLGI security: a. The security was purchased prior to January 1, 2018. b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security. c. The NAIC Designation was derived from the credit rating assigned by an NAIC CRP in its legal capacity as a NRSRO which is shown on a current private letter rating held by the insurer and available for examination by state insurance regulators. d. The reporting entity is not permitted to share this credit rating of the PL security with the SVO. Has the reporting entity self-designated PLGI securities?	Yes	· 1	No	, [X]
36.	By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated FE fund: a. The shares were purchased prior to January 1, 2019. b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security. c. The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019. d. The fund only or predominantly holds bonds in its portfolio. e. The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO. f. The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed. Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria?				o [X]
37.	By rolling/renewing short-term or cash equivalent investments with continued reporting on Schedule DA, Part 1 or Schedule E Part 2 (identified through a code (%) in those investment schedules), the reporting entity is certifying to the following: a. The investment is a liquid asset that can be terminated by the reporting entity on the current maturity date. b. If the investment is with a nonrelated party or nonaffiliate, then it reflects an arms-length transaction with renewal completed at the discretion of all involved parties. c. If the investment is with a related party or affiliate, then the reporting entity has completed robust re-underwriting of the transaction for which documentation is available for regulator review. d. Short-term and cash equivalent investments that have been renewed/rolled from the prior period that do not meet the criteria in 37.a - 37.c are reported as long-term investments.
