#### 1. Summary of Significant Accounting Policies

#### A. Accounting Practices

The accompanying financial statements of Symetra National Life Insurance Company (The Company) have been prepared on the basis of accounting practices prescribed or permitted by the Insurance Division, Department of Commerce, of the State of Iowa (the Department).

Companies domiciled in the state of Iowa prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual (NAIC SAP)*, subject to any deviations prescribed or permitted by the Department. A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the state of Iowa is shown below.

## B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes available, which could impact the amounts reported and disclosed herein.

The company continues to actively monitor the current impacts of and response to the Coronavirus Disease 2019 (COVID-2019) pandemic and its related risks, and to plan accordingly. The Company's estimates and assumptions could change in the future as more information becomes known about the impacts of the pandemic.

#### C. Accounting Policy

Premiums are recognized annually on the policy anniversary for individual traditional life policies, consistent with the statutory reserving process. Premiums for universal life policies are recognized when received.

In addition, the following provides a summary of the Company's key accounting policies:

- (1) The Company does not currently invest in short-term investments.
- (2) Bonds, excluding loan-backed and structured securities, are stated at amortized cost using the constant yield method, except for those with an NAIC designation of 6, which are reported at lower of amortized cost or fair value.
- (3) The Company does not currently invest in common stocks.
- (4) The Company does not currently invest in preferred stocks.
- (5) The Company does not currently invest in mortgage loans.

- (6) Loan-backed securities, including mortgage backed securities are stated at amortized cost, except for those with an NAIC designation of 6, which are reported at lower of amortized cost or fair value. Income is recognized using a constant effective yield based on anticipated prepayments and the estimated economic life of the securities. Prepayment assumptions are based on current interest rates and the economic environment. When actual prepayments differ significantly from anticipated prepayments, the effective yield is recalculated to reflect actual payments to date and estimated future payments. The net investment in the security is adjusted to the amount that would have existed had the new effective yield been applied since the acquisition of the security (i.e. the retrospective method). For commercial mortgage-backed interest-only securities, the effective yield is adjusted prospectively for any changes in estimated cash flows. The Company includes any resulting adjustment in net investment income in the current period.
- (7) The Company has no investments in subsidiaries, controlled or affiliated companies.
- (8) The Company has no ownership interests in joint ventures, partnerships or limited liability companies.
- (9) The Company does not currently invest in derivatives.
- (10) The Company does not use anticipated investment income as a factor in the premium deficiency calculation.
- (11) The Company has no accident or health contracts.
- (12) The Company has not made material modifications to its capitalization policy from the prior year.
- (13) The Company has no pharmaceutical rebate receivables.

#### D. Going Concern

After evaluating the entity's ability to continue as a going concern, management was not aware of any conditions or events which raised substantial doubts concerning the entity's ability to continue as a going concern as of the date of the filing of this statement.

#### 2. Accounting Changes and Correction of Errors

Accounting Changes

There were no accounting changes for the years ended December 31, 2021 or 2020.

#### D. Loan-Backed Securities

- (1) Prepayment assumptions for single and multi-class mortgage-backed securities are obtained primarily from broker dealer survey values or internal estimates when survey values are not available.
- (2) The Company did not recognize other-than-temporary impairments (OTTI) for loan backed and structured

securities due to the intent to sell or inability to hold for the year ended December 31, 2021.

- (3) As of December 31, 2021 the Company did not hold any investments in loan-backed and structured securities for which OTTI has been recognized where the present value of cash flows expected to be collected is less than the amortized cost of the security.
- (4) As of December 31, 2021 the Company did not hold any impaired securities (fair value is less than cost or amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non- recognized interest related impairment remains).
- (5) The Company's review of available-for-sale securities for OTTI includes both quantitative and qualitative criteria. Quantitative criteria include the length of time and amount that each security is in an unrealized loss position (i.e., is underwater) and, for bonds, whether expected future cash flows indicate a credit loss exists.

While all securities are monitored for impairment, the Company's experience indicates that under normal market conditions, securities for which the cost or amortized cost exceeds fair value by less than 20% do not typically represent a significant risk of impairment and, often, fair values recover over time as the factors that caused the declines improve. If the estimated fair value has declined and remained below cost or amortized cost by 20% or more for at least six consecutive months, the Company further analyzes the decrease in fair value to determine whether it is an other-than-temporary decline. The Company considers, among other factors:

- · Extent and duration of the decline in fair value below cost or amortized cost;
- Financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations, earnings potential or compliance with terms and covenants of the security:
- · Changes in the financial condition of the security's underlying collateral;
- Any downgrades of the security by a rating agency;
- Nonpayment of scheduled interest; Or the reduction or elimination of dividends;
- Other indications that a credit loss has occurred.

For bonds, the Company concludes an OTTI has occurred if a security is underwater and there is an intent to sell the security, or it is more likely than not that the Company will be required to sell the security prior to recovery of its amortized cost, considering any regulatory developments, prepayment or call notifications, and the Company's liquidity needs.

Loan-backed and structured securities are considered other-than-temporarily impaired when the Company has concluded it does not have the intent and ability to retain the security for sufficient time to recover the amortized cost basis, it intends to sell the security prior to maturity at an amount below the carrying value, or it does not expect to recover the entire amortized cost basis even if it has the intent and ability to hold.

The Company has a Services and Shared Expenses Agreement with its affiliates under common ownership with Symetra Financial Corporation (Symetra), whereby the parties each agree to provide and receive from each other certain general services (related to sharing common management, personnel and facilities) and to share expenses thereof. These expenses include charges for rent, corporate overhead, data processing systems, payroll, benefits, and other miscellaneous charges and are included in investment and general insurance expenses in the summary of operations.

The Company has an Investment Management Agreement with its affiliate, Symetra Investment Management Company, a subsidiary of Symetra Financial Corporation. The agreement provides for investment advisory services related to the Company's invested assets.

- F. The Company has not agreed to any guarantees for affiliates.
- G. All outstanding shares of the Company are owned by Symetra Life Insurance Company. All outstanding shares of Symetra Life Insurance Company are owned by Symetra Financial Corporation, an insurance holding company domiciled in the state of Delaware. This control does not significantly change the operating results or financial position of the Company compared to results that would have been obtained without the control. Symetra Financial Corporation is a wholly owned subsidiary of Sumitomo Life Insurance Company, a mutual company (sougo kaisha) organized under the laws of Japan (Sumitomo Life).
- H. The Company owns no shares, either directly or indirectly, in the Parent or Symetra Financial Corporation.

Retirement Plans

The Company participates in a defined contribution 401(k) plan sponsored by Symetra Life Insurance Company, its parent, for all eligible employees that includes matching a participant's contributions up to 6% of eligible compensation. The Company's share of expenses for the plan was not material for the years ended December 31, 2021 or 2020.

- H. The Company does not participate in a cash balance, post employment benefit or deferred compensation plan.
- I. There is no impact from the Medicare Modernization Act since the Company does not participate in postretirement benefit plans.

#### 13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

- A. The Company's capital is common stock, 20,000 shares authorized, issued and outstanding, \$125 per share par value. There are no other classes of capital stock.
- B. The Company has no preferred stock.
- C. Under lowa law, the Company may pay dividends only from the earned surplus arising from its business and must receive the prior approval of the Insurance Commissioner of the State of Iowa ("the Commissioner") to pay stockholder dividends or make any other distribution if such distributions would exceed certain statutory limitations. Iowa law gives the Commissioner discretion to disapprove requests for distributions in excess of these limits. Extraordinary dividends include those made within the preceding twelve months that exceed the greater of (i) 10% of statutory policyholder surplus as of the previous year-end or (ii) the statutory net gain from operations from the previous calendar year. Based on December 31, 2021 statutory results, the maximum dividend payout that may be made without prior approval in 2022 is \$1,217,087.
- D. The Company paid no dividends during the years ending December 31, 2021 or 2020.
- E. Within the limitations of (3) above, there are no restrictions placed on the portion of Company profits that may be paid as ordinary dividends to shareholders.
- F. The Company has no restrictions on surplus.

G. Advances to surplus not repaid

Not applicable.

- H. The Company holds no stock for special purposes.
- I. There was no change in aggregate write-ins for special surplus funds as of December 31, 2021.

#### 20. Fair Value Measurements

#### A. Assets Measured at Fair Value

The Company determines the fair value of its financial instruments based on the fair value hierarchy, which favors the use of observable inputs over the use of unobservable inputs when measuring fair value.

The Company has categorized its financial instruments into the three-level hierarchy, which gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The level assigned to a fair value measurement is based on the lowest-level input that is significant to the measurement. The fair value measurements for the Company's financial instruments not carried at fair value, but disclosed at fair value are categorized as follows:

- Level 1 Unadjusted quoted prices in active markets for identical instruments.
- Level 2 Quoted prices for similar instruments in active markets and model-derived valuations whose inputs are observable. This category includes those financial instruments that are valued using industrystandard pricing methodologies or models. All significant inputs are observable or derived from observable information in the marketplace.
- Level 3 Fair value estimates whose significant inputs are unobservable. This includes financial
  instruments for which fair value is estimated based on industry-standard pricing methodologies and
  internally developed models utilizing significant inputs not based on or corroborated by readily available
  market information. In limited circumstances, this may also utilize estimates based on non-binding broker
  quotes.
- (1) The Company had no significant financial assets or financial liabilities recorded at fair value as of December 31, 2021 or 2020.
- (2) (5) Not applicable
- B. Other Fair Value Disclosures

#### C. Fair Values for all Financial Instruments by Levels 1, 2 and 3:

The tables below reflect the fair values and admitted values of all admitted assets and liabilities that are financial instruments, subject to fair value disclosure requirements. The fair values are also categorized by the valuation hierarchy as described in Note 20A.

#### D. Not Practical to Estimate Fair Value:

Type of Financial Instrument	Carrying Value	Effective Interest Rate	Maturity Date	Explanation
Contract loans:				
December 31, 2021	154,410	5.2% to 7.4%	N/A	See below
December 31, 2020	183,648	5.2% to 7.4%	N/A	See below

The Company's contract loans have varying interest rates ranging from 5.2% to 7.4% and do not have stated maturity dates or payment terms. Cash flow projections are not available and would require significant amounts of judgment and estimation and would not be practical given the immateriality of these assets.

#### 31. Reserves for Life Contracts and Annuity Contracts

- (1) The Company waives deduction of deferred fractional premium upon death of life policy insureds and returns any premium beyond the date of death. Surrender values on policies do not exceed the corresponding benefit reserves.
- (2) For substandard lives, either extra premium is charged, or the gross premium for a rated age is charged. Mean reserves are determined by computing the regular mean reserve for the plan at any rated age and, in addition, holding one-half of any extra premium charge for the year.
- (3) As of December 31, 2021 and 2020, the Company had \$437,464 and \$352,329, respectively, of insurance in force for which the gross premiums are less than the net premiums according to the standard valuation set by the Department. Reserves to cover the difference as reported in Exhibit 5, miscellaneous reserves section, were \$1,614 and \$1,398 as of December 31, 2021 and 2020, respectively, and were included in aggregate reserves.
- (4) The tabular interest has been determined by formula as described in the instructions.
- (5) Tabular interest on funds not involving life contingencies not applicable.
- (6) Other reserve changes for the year ended December 31, 2021:

	The Company has elected to use the same pricing methodology and sources as utilized for obtaining GAAP fair values in which the security would sell in an arm's length transaction between a willing buyer and seller in possession of the same information. The Company uses quoted market prices from independent third-party pricing services or public market information to determine the fair value of its investments when such information is available. When such information is not available for investments, as in the case of securities that are not publicly traded, we determine fair value using other valuation techniques. Such techniques include evaluating discounted cash flows, identifying comparable securities with quoted market prices, and using internally prepared valuations based on certain modeling and pricing methods.
